WMS

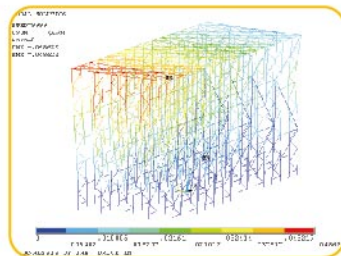

## Domestic Certificate

China Green Warehousing And Distribution

High technology expertise

Shanghai Manufacturing Base

R&D Center

## Racking Support Mezzanine

Maxrac® Racking Support Mezzanines add a second or third level inside your facility to create more usable space. These Mezzanines are customized to fit your exact area, height, colour and load requirements. Create new production, office, storage or assemble space, locker rooms, parts departments, stockrooms, cafeterias, company records storage, work platforms, distribution centers and more. Mezzanines are professionally engineered and designed to meet common building codes.

## Steel Structure Mezzanine

### Steel Structures Make Mezzanine Projects Easy

Maxrac® Steel Structural Mezzanines are designed and manufactured to meet customer's specific requirements. Whether you require loading platform, storage platform or a freestanding Mezzanine floor we can help you specify and design a customized solution to suit your needs. Maxrac's Steel Structural Mezzanine floors are able to span longer distance whilst having heavier load capabilities. This allows for clearer areas under the raised structure for maximum space usage. The mezzanine platforms created can also be used for additional storage areas, offices or as order picking platforms. A variety of flooring media is available, as well as accessories such as staircases & landings, handrails, pallet gates and walkways.

All of Maxrac® Steel Structural Mezzanine Floors are designed in accordance with common engineering standards.
