# Longspan Shelving

Maxrac® Longspan Shelving is the perfect solution no matter what you need to store from small components to heavy cartons. Maxrac® Longspan Shelving is fast and easy to assemble, and uses a modular design with bolted frames & knock down beams which require no special tools, giving you maximum storage in minutes whatever your available space is.

Maxrac® Longspan Shelving offers you virtually unlimited opportunities to expand your storage capacity, giving you higher density storage and greater flexibility no matter what you are storing. Long, uninterrupted spans of up to 3000mm also make Maxrac® Longspan ideal for a wide range of big and bulky items. Shelves are easily adjusted to your needs as stock patterns change. All components comply with Australian, European and American guidelines for safe storage.
