

# *Boltless Rivet Shelving*

## Maxrac Storage Equipment Engineering Co.,LTD

Maxrac® - Smart by Design, Strong by Nature

Founded in 2003, Maxrac® is a Shanghai-based manufacturer and leader in warehouse storage & intelligent logistics systems. With a full range of racking and shelving solutions -including our trusted Rivet Shelving- Maxrac® delivers to customers and distributors in over 100 countries. Our products feature carefully engineered designs and premium-quality manufacturing, ensuring optimal selection and outstanding durability.

We have supported top-tier companies and distributors in delivering numerous large-scale international projects, gaining rich experience and proven success. Renowned for innovation, reliability, and quality, our systems meet global standards including CE, EN15512, RMI, and AS4084 to ensure safety and performance.

Standing strong as a major force in China's industrial sector and a reliable partner on the international stage, we commit to executing large projects, nurturing long-term collaborations, and expanding together with our distributors worldwide.

Let's shape the future of storage—together.

### Boltless Rivet Shelving

Maxrac Boltless Rivet Shelving offers a highly efficient, easy-to-assemble solution for light to medium-duty storage applications. Known for its simple boltless design, the system uses rivet beams that lock into upright posts, allowing for quick assembly without tools or hardware.

- The Z-Beam is an optimal solution for situations where a lower profile is required, particularly when shelf height spacing is a key consideration.

### Applications

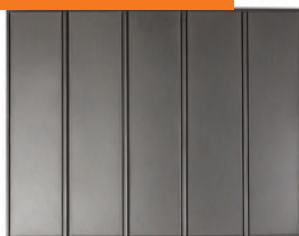

Perfect for homes, offices, warehouses, and retail spaces—wherever lightweight, flexible shelving is needed for smart and efficient storage.

Upright Base Cover

Shelf Plate

Our Rivet Shelving comes in 2 types:

## Inner Hole Upright & Outer Hole Upright

### < Inner Hole Upright

Strong, sleek shelving with inner holes for better load capacity and clean look. Ideal for stable, long-term storage.

**Single-unit Components**  
Example shown: 4-tier configuration

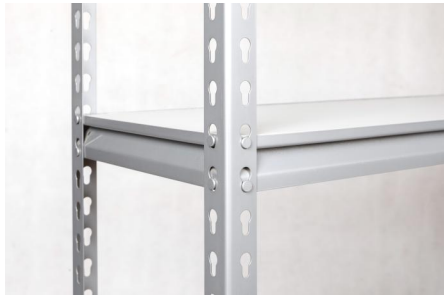

### • Regular Size & Information •

Name	Upright&Thickness (mm)	Standard Size (L*W*H/mm)	Load Capacity (Kg/Layer)	Color (Standard)	Features
<b>Inner Hole Rivet Shelving</b>	38x38x(0.8/1.0)	900x400x1830	100 KG	Black or White	Hidden Hole
	38x38x(0.8/1.0)	1000x400x1830	100 KG	Black or White	Clean & Refined Appearance
	38x38x(0.8/1.0)	1200x400x1830	100 KG	Black or White	Quick assembly
	38x38x(0.8/1.0)	1200x500x1980	100 KG	Black or White	Shelf adjustment

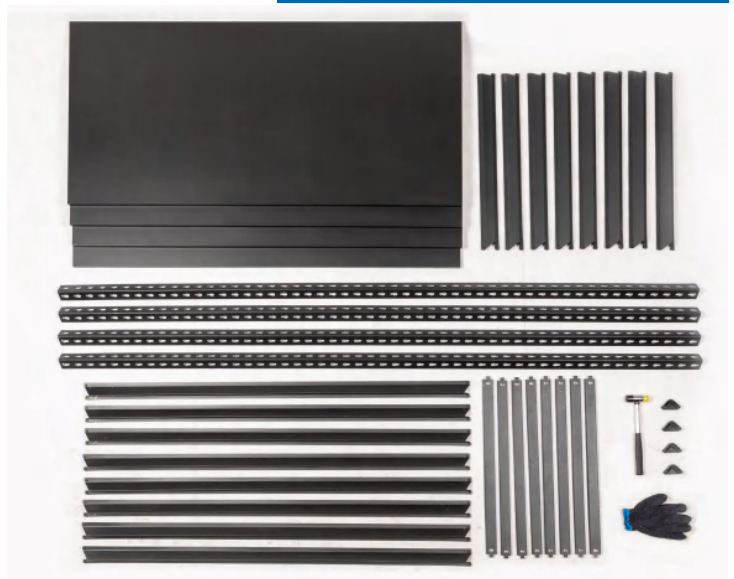

**Remarks:** Custom configurations are available in color, size, and load capacity.

## < Outer Hole Upright

Fast, tool-free shelving with outer holes for quick shelf adjustments.  
Perfect for flexible, frequently changing storage needs.

**Single-unit** Components  
Example shown: 4-tier configuration

### • Regular Size & Information •

Name	Upright&Thickness (mm)	Standard Size (L*W*H/mm)	Load Capacity (Kg/Layer)	Color (Standard)	Features
<b>Outer Hole Rivet Shelving</b>	34x34x(0.8/1.0/1.2)	900x400x1830	100 KG	Black or White	Simple, Stylish, Market-Ready  Quick assembly Shelf adjustment
	34x34x(0.8/1.0/1.2)	1000x400x1830	100 KG	Black or White	
	34x34x(0.8/1.0/1.2)	1200x400x1830	100 KG	Black or White	
	34x34x(0.8/1.0/1.2)	1200x500x1980	100 KG	Black or White	

**Remarks:** Custom configurations are available in color, size, and load capacity.

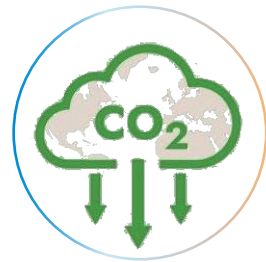

### Package

Rivet Shelvings are supplied with standard neutral packaging. Customized packaging options can be offered upon request, subject to minimum order quantities.

### Low-Carbon & Environmentally

At Maxrac, we value environmental responsibility and actively respond to CBAM policies. We reduce carbon emissions at every stage by using premium low-carbon materials and energy-efficient processes, aiming to minimize environmental impact. Our commitment is to deliver sustainable, high-quality storage solutions that offer lasting value.
